Active-Bioresonance Vitaldrink

The i-like bioresonance Vitaldrink provides vitality and is the perfect companion to get you through each day.

Natural Swiss whey carries the formula. Thanks to the high quality formula developed by i-like with herbs bamboo and spices, balanced according to the five elements of Asian regeneration philosophy as well as bioresonance programming, this drink supplies vitality like no other.

The Vitaldrink powder is COLD-vacuum-dried according to its own patented process (contrary to the usual shock-heat drying). This keeps its nutrients bioavailable and bioactive.

A special feature of Vitaldrink is its very low glycemic load of an almost unbelievable 0.77. A low glycemic load can be beneficial for a diet focused on weight. In addition, Vitaldrink offers great protein value of about 131 (everything from 100 is excellent!).

Vitaldrink is ideal for everyday use and can be easily integrated into everyday life. Whether in the morning, at noon, or in the evening, Vitaldrink works well at any time of the day. It contributes to a balanced nutrition, is alkaline, and particularly well tolerated.

We recommend enjoying this vital kick three times a day.

i+likeTM
Metaphysik

A balanced food creates balance and harmony for both body and mind.

Intensive use of the Vitaldrink

Vitaldrink is very popular, especially in combination with ProBodyTea, Alkaline Bouillon, and Bamboo-Vitalplasters. Ideally, you will keep up this intensive use for at least 10 days.

Possible application:

Vitaldrink

Vitaldrink provides many vital substances and is the ideal start to the day. Enjoy as much Vitaldrink as you like during the day.

By the way: Vitaldrink works really well in combo with fruit to make your own smoothies or as an add-on to your breakfast cereal.

ProBodyTea

ProBodyTea is the perfect companion for the whole day. 2-3 cups daily can help in keeping your natural acid-base balance in check.

Alkaline Bouillon

In the evening, enjoy well-balanced nutrition with plenty of good energy (GuQi) either as a warm drink, soup, or for other uses in the kitchen.

Bamboo-Vitalplasters

Regenerate and restore balance while you sleep. The patches are simply attached overnight to the soles of both feet.

Volunteer testing

Vitaldrink was tested by 160 volunteers. They responded to various questions as follows:

87% of all volunteers said that they had already noticed a better quality of sleep after just 10 days.

After 10 days of intensive use, 68% of all participants thought that their digestion had improved significantly.

All participants reported weight loss, ranging from 0.5 kg to 7.8 kg in 10 days of intensive use of Vitaldrink from i-like.

Most women reported a visible and measurable decrease in their cellulite after 10 days of intensive use.

87% of respondents said they had significantly more vitality. They were livelier, needed less sleep, and were more interested in being active.

74% of the subjects agreed that they were more balanced and emotionally more stable.

All perceived their sense of well-being as extremely positive. 98% of respondents were satisfied or even extremely impressed by the impact.
