

The i-like Vital products

What I need to know:

i-like Metaphysik has taken on the task to help people help themselves. For this purpose, i-like uses not only the latest technologies and research, but also takes benefits from the latest Swiss bioresonance technology combined with traditional knowledge of the Asian regeneration philosophy. Because simply said, humans function via magnetic fields (oscillations), which can be activated and harmonized using the innovative products from i-like.

The recommended products are:

Swiss High
Quality

Bioresonance
activated

Yin-Yang
Balance

100%
Vegan

Discover more information and many application tips in our product catalogue.

Conclusion: Vital products - simply experience

Balanced lifestyle

Do you feel fit, balanced, and vital?

What does this really mean? If we take a closer look at these terms, the term „fit“ comes from fitness, which is generally understood as physical and often mental well-being.

Balanced also means harmonious, serene, self-contained, and vitality is a Latin term and means nothing other than ability to live and vital force.

Due to today's stress on the body such as bad diet, stress, lack of exercise, electrosmog and emotional stress, our body might struggle to keep the right balance at times.

Fortunately, there are ways to actively help your body in doing so.

i-like vital products are activated with the bioresonance system. With this system, their effectiveness grows significantly whilst limiting any potential side effects.

Here are some great helpers:

Bamboo has a high content of polyphenols, antioxidants and minerals, which can positively support the organism. Bamboo has the power to re-energise our body and harmonise the organism.

Curcumin and vitamin D feature anti-inflammatory properties whilst supporting the immune system. When properly combined, these substances constitute a real power pack.

Herbal extracts brought together in one formulation can help our body attain an even acid-base balance.

How does it work?

To achieve a positive balance, i-like recommends combining the three products: Bamboo Vital Patches, CurSun+ and ProBodyTea. Their effect is not only dependent on a proper combination but also on the timing of their intake. And this is how it works, quite simply:

Application

7:00 to 12:00

Take a CurSun+ in the morning. Enriched with many vitamins and valuable ingredients such as turmeric and resveratrol, CurSun+ is ideal to boost your daily vitality and propel you into the day.

07.00 to 20.00

ProBodyTea is the perfect companion for the whole day. 2-3 cups every day can help to keep your natural acid-base balance in check. Tea preparation is quick and easy thanks to tea-extract powder.

20.00 to 08.00

Regenerate and balance while you sleep. To date, the simplest and best solution to increase your well-being are probably Bamboo Vital Patches. Patches are simply adhered to both feet soles overnight.

i-like recommends

Bamboo Vital Patches

The revolutionary Bioresonance Bamboo Vital Patches have been developed as a result of many years of research, applications and experience. The patches are easily stuck on overnight onto the soles of both feet. In the middle of the sole of the foot, there is the acupuncture point Kidney 1, which serves as THE main expulsion point of the body. So the patches easily offer you new energy and vitality while you sleep. They are highly effective, can influence acid-base balance and let the user quickly sense, what changes can be achieved.

CurSun+

With CurSun+, you also benefit from vitamin C, vitamin K₂ and vitamin D₃, as well as high-quality herbal mixtures with turmeric and ginger. The patented manufacturing method of the extract results in a 10-fold higher bioactivity of the curcumin.

ProBodyTea

The ProBodyTea has been developed to balance the natural acid-base balance according to the yin-yang principle. The proprietary systems for the neutralisation of acid are optimised thanks to the ProBodyTea
