

Using the sinus Body SPORT

What do I need to know?

The sinus Body SPORT is a pulsating sinus Earth magnetic field device designed for use in various sports.

How do I use the sinus Body SPORT?

The casing of the sinus Body SPORT contains a Converter with some basic information about sports.

How do I use the sport Converter?

To activate the information stored to best effect, we recommend using the sport Converter cards on a permanent basis and in combination with the sinus Body SPORT.

Note on scientific acceptance

As a manufacturer, we comply with the obligation not to make any claims regarding the therapeutic effectiveness of our Meta-Converters and sinus devices. The statements made and information provided on the effects of the device and the pulsating magnetic field are derived from source-based, scientific studies and reports of users' experiences. We dissociate ourselves from any claims or promises regarding therapeutic or medical effectiveness as set out in the Swiss Therapeutic Products Act (TPA) and the Unfair Competition Act (UWG).

Using the sport Converters and the sinus Body SPORT

The sinus Body SPORT is suitable for adults and children, for revitalisation and transmission of the 8 Hz frequency. Ideal for a wide variety of sports. Use the sinus Body SPORT for:

- **tennis, squash, badminton**
- **jogging, cross-country skiing**
- **weight training, body-building**
- **golf**
- **shooting**
- **hiking, climbing, mountaineering**
- **mountain biking, cycle racing**
- **and other possible uses**

Benefit from i-like bioresonance products, such as the Meta-Converter, sinus 25 Room Converter, sinus Body, CurSun+, ProWheyDrink, ProMetaVit, cosmetics and many other valuable aids for everyday life!

Discover i-like Sports-World

Sport in its various forms is healthy for the body and mind. It strengthens your sense of community and promotes social skills.

Sport should be encouraged. Thanks to i-like technology, this can be achieved in professional sport, but also in the wide field of amateur sport. In addition, i-like products help newcomers and those reluctant to do sport to get over their inhibitions. With the use of i-like products, professional athletes experience how they can overcome their limitations and, above all, experience an unbelievable increase in regeneration.

i-like believes in the positive effects of sport, for health and for social esteem. But i-like is also aware of the dangers sport poses. Overestimation, accidents and carelessness quickly lead to problems.

That's why i-like wants to help optimise sport in the areas of mental health, concentration and regeneration. This works extremely well, as some professional and amateur athletes report and experience on a daily basis.

No matter what goal you want to achieve and no matter whether you're a beginner, an amateur athlete or a professional, the i-like sports concept can support you in many areas related to your physical and mental strength.

Sport is a wonderful activity for body and mind. To 'help people help themselves', i-like promotes the potential to increase performance, strength, endurance and concentration.

sinus technology for sport

The sinus Body SPORT is a pulsating sinus Earth magnetic field device that you can wear, which rhythmically supplies your body's cells with the Earth's frequency of 8 Hertz. The device is worn around the neck, directly over the chest. Ideal for the heart's chakra, it can provide make its charge (8 Hertz sinus frequency) directly available to the body.

The sinus Body SPORT contains the following basic information (bioresonance frequency);

- **Regulation of electrosmog (information to strengthen bioresistance)**
- **Issues such as deblocking**
- **Skin optimisation**
- **Metabolic optimisation**
- **Cell water optimisation**
- **Increased vitality (sports)**
- **Activation of well-being**
- **Activation of mental strength**
- **Activation of the i-like sport Converter (cards)**

In addition, with the sinus Body SPORT, you have the option to activate various frequency patterns, quite individually and as appropriate for your sport. The information (frequencies) activated in this way are transmitted or made available to the body. This promotes the body's own bioresistance.

Experience the sinus Body SPORT in everyday life or amateur or professional sport.

Individual frequency patterns

Always wear the sport Converter cards directly on your body, close to your skin, as often as you can and whenever possible in combination with the sinus Body SPORT. The sport Converters provide the body with various frequencies at certain information levels, which can indirectly have a positive influence on performance and training success.

sport & concentration Converter

Focus, balance and concentration are crucial for success in a wide variety of sports disciplines. It's not only physical fitness that counts, but mental fitness too.

sport & condition Converter

Condition refers to the body's general performance capacity. Building up condition isn't just about endurance training, but also the personal resilience of your body and mind.

sport & muscles Converter

Muscle building is very important for the shape of your body, training success and posture. With a strengthened muscular corset, you can prevent tension of all kinds.

sport & regeneration Converter

During regeneration after sport, your body's processes are activated to restore balance. During this time, new strength is gathered.
